

North London Collegiate School (Singapore)

When we were searching for schools with academic rigour and integrated learning, our friends recommended NLCS (Singapore). Avneya has been going there since August 2024 and is currently in Grade 5. Ameya joined in August 2025 and is in KG2.

We've had a very positive experience and are happy with our decision to send both children to NLCS. The curriculum is rigorous but enriching – and carefully crafted to bring joy to learning, which is essential in the formative years. It's very satisfying to see how a particular topic is chosen for a term and all learning pertaining to each subject is woven around this central theme.

The teachers are dedicated and supportive of individual needs. The emphasis on pastoral care allows students to thrive both academically and personally.

The school has a wide range of options for CCAs, supported by excellent facilities and coaching. Each term, students get to pick four to engage and experience. Avneya is into swimming, soccer, math, chess and comic illustrations. Ameya is being exposed to a plethora of sports and activities, which is beneficial for him to decide what he enjoys doing the most.

Diversity is celebrated in the school. Our boys have learnt to appreciate different viewpoints, cultures and

traditions in a way that feels meaningful and respectful.

If you want a well-grounded and holistic education for your child, you should certainly consider NLCS.

Founded: 2020

Dates: August to June

Ages: From 3 to 18 years

Size: 1,450

Curriculum: Bespoke curriculum based on NLCS (UK), IBDP
