Beyond The Classroom

Our school's co-curricular programme offers over 120 activities a week, which encourage students to explore their interests and develop new passions. In the Junior School, students build confidence and curiosity through a diverse range of opportunities across sports, music, drama, visual arts and academic enrichment. As students progress into the Senior School, they continue to develop these interests while exploring an even broader range of opportunities, from performing arts, visual arts and creative expression to leadership and student-led initiatives. Together, these experiences nurture creativity, resilience, collaboration and independence, supporting every student's growth both in and beyond the classroom.
